Insertable Cad Files

Armaclad Windows & Doors has assembled a series of Cad Cross Section Files for use by Architects, Builders and Installers in showing the Armaclad Fiberglass Windows in Building Plans and Installation Shop Drawings. These files are formatted in AutoCad .dwg (Version 2004) and AutoCad .dxf (Version 2000) to try to accommodate as many users as we can. Armaclad Windows & Doors respectfully ask that these drawing files be used for the intended purposes only and not be used or supplied to anyone else without the knowledge of Armaclad. Each group of files shown below represents a folder provided and the files each one contains.

1. Series 1000 - Double Hung

- 1000 Double Hung - Horizontal Section
- 1000 Double Hung - Vertical Section
